Dear Mr. Jenner

In your book  
~~Just Right~~ I thought  
it was "just right" because  
it gave you an idea of  
the actual world and  
had a good story too.

I also think it was  
creative with the Zerv  
and Zerv berries. I think  
there was an abrupt  
ending but that  
was good because it  
made you think  
about what you  
could do help too.

You should consider  
revising this part:

It looks like it  
adds up really much  
faster than anyone  
thought it is kind  
of confusing. You also  
made it funny by having  
the big fish expression  
through out the book

Overall I think you  
should publish it because  
it's a good book.
